California High Speed Rail and Palomar Runway
Supplemental Nutrition Assistance Program
Fair and Open Competition
New Connection with Public

North County Gang Commission - ARTS PROMOTE SAFETY by keeping a dangerous element off the streets by giving them a purpose through after school arts programming.

Retaining San Diego's Military Presence - use of the ARTS FOR COMMUNICATION has proven to be the most successful way to deliver information of all sorts

Heritage Trails Approved for Valley Center - Utilize existing Visual Arts Programs to help raise public awareness and to get people more involved in this issue. ARTS TAPS INTO EMPATHY with Programs like Urban Succession show how our wildlife in urban settings can be preserved.(Part of the DNA of Creativity project)

Local Fire Protection - EMERGENCY PREPAREDNESS PROGRAMS for artists and Synergy Arts Foundation programs for artists affected by the fire

Leave No Veteran Behind and Veterans Day - Expanding on local arts programs for veterans is another way to raise awareness of this situation and means further, local spending by arts venues and patronized businesses, which has an INDIRECT MULTIPLIER EFFECTS. Arts programs for the veterans enable expressions of deep emotions to be channels and used to heal old and new wounds giving them INSIGHT AND SOLACE.

Planning for Fallbrook Library - ARTS PROGRAMS in the PUBLIC LIBRARIES throughout the district and PUBLIC ART in the parks are great enhancements to our community. LIBRARIES ARE CULTURAL CENTERS in their community that utilize the arts (visual, performing, literary, culinary, healing arts). The arts are a way to increase attendance for all ages and life long learning.

Tools for Community Initiatives - CREATING VIBRANT ART PROJECTS FOR NEIGHBORHOOD builds PRIDE through BRANDING and ARTS DISTRICTS IN COMMUNITIES including high technology business.

Historic Marker for Minter's Ranch Affair - ARTS PROGRAMMING includes investment in the arts and cultural resources which can benefit local and state economies by supporting job growth, stimulating commerce and sustaining neighborhoods by stabilizing property values..

Marker for Minter's Ranch Affair - Creating vibrant art projects for neighborhood and ARTS DISTRICTS builds PRIDE through BRANDING

California High Speed Rail and Palomar Runway- Utilizing art as a way to develop railways campaigns contributes to a VITAL DESIGNATION POINT FOR TOURISTS/VISITORS as a way to

RAISE AWARENESS and then help with overhead costs.

Supplemental Nutrition Assistance Program - Using innovative Healing Arts Therapy partnership programs (use of music, writing, and visual arts) into the health assessment to ASSURE A MORE INTEGRATED PROGRAM of health and well being.

Fair and Open Competition - ARTS EDUCATION is fundamental to prepare our students of all ages for the challenges of an innovation based economy.

New Connection with Public - The communication experience with the collaboration of artist vision and visual input could allow for revenue streams from multinational companies but WITHOUT THE COMMERCIAL POLLUTION with traditional advertising/communication underwriting.
