Deep inside of our HEARTS is a beautiful, capable CREATIVITY!

In this 4 hour class we will draw out this CREATIVITY, focus it toward personal and world problems that are breaking our hearts, and release intuitive insights, new understandings and simple, dynamic ways to move forward.

The largest part of us is invisible and drawing is a safe way to explore this part!

*"The creative urge in us is the connecting link that can restore us to the wholeness we have lost.
The medicine is already within." ~ Jan Valentin Saether*
